Allāb, Allāb ...

Allāb, Allāb, Allāb, Allāb, Allāb, Allāb, Allāb, Subḥān Allāb!

Allāb, Allāb, Allāb, Allāb, Allāb, Allāb, Allāb, Karīm Allāb!

Allāb, Allāb, Allāb, Allāb, Allāb, Allāb, Allāb, Subḥān Allāb!

Allāb, Allāb, Allāb, Allāb, Allāb, Allāb, Allāb, Sulṭān Allāb!

**Y**ou are the Sultan, oh our Lord! There is no one except You, You are the Creator, You are the Sultan, there is endless Majesty for You and Your Majesty appears in the smallest thing as well as the biggest galaxies. Your majestic sultanate appears in atoms as well as galaxies. Only You are in existence, no one else.

*Aṣ-ṣalāt wa s-salām*, all salutations and greetings and honour on Your Most Beloved and Honoured servant Sayyidinā Muḥammad ﷺ in whose honour everything in existence has been created.

Allāh, Allāh, Allāh. Oh our Master, oh our Master, through your Sultanate we may see endless oceans that are only for His creatures. Our Lord Almighty Allah has created endless oceans and He is ordering us, “Oh My servants, first of all say My Most Glorified Name, say ‘*Bismillābi r-Raḥmāni r-Raḥīm*.”

And we are saying *Bismillābi r-Raḥmāni r-Raḥīm*. Oh our Master, if You did not teach us we would know nothing. It is so difficult for us to move in an ocean when we are only used to being in a pond one or two meters big. If there was no sultanate in creation, we would always be in that small pond. We would not be able to move out and every-

thing that we could see would be in that small pond. But because of the honour of Sayyidinā Muḥammad ﷺ the Lord of Heaven has made the whole of creation and given it to him.

He is Sayyidinā Muḥammad, peace be upon him, a representative of the Creator, but don’t think that any representative can represent the Lord of Creation fully, because complete representation is impossible. The Creator is only One, there can’t be two or three or more. No. He is only One, Unity is for the Lord of Creation. They are making me speak about such a subject to try and increase the understanding of people a little bit. And if we talked from Pre-Eternity until Eternity, it would be impossible to give a description of the representative, which he has been made. But absolute representation no one can carry, it is impossible.

Absolute representation is impossible to carry. Why? He is the Creator, Almighty Allah. Absolute mightiness is for Him and everything that belongs to Him is relative to His absolute size. When you say ‘absolute,’ it is impossible to understand or to know or to make a way to approach His Divine Essence. All majesty, all glory, are absolute, and it is impossible for any creature to understand that Absolute Existence.

What do you think about a fish, a small fish, or a big fish, or a whale, in an ocean. What is their understanding of the existence and tremendous majesty of those oceans. And do you think the understanding of a big fish compared to a small fish is different? Whales don’t think they know more than a small fish about that ocean, and we, who are on this planet, are the same.

If we were on the biggest planet, majestic Jupiter, don’t think that our understanding would be different. It would be the same. Even if you were on a big star or the biggest star in space, your understanding would be the same. That means that the knowledge which we are asking for about the Creator, is

never changing, if we were ants, or if we were whales, if we were on earth or if we were on the biggest star in space in the galaxy.

You may be in the biggest galaxy but your understanding about the Creator and His Majestic Kingdom would not be more or less, it would be the same, on the same level because we are creatures. It doesn't matter whether we are big or small, we are creatures, and He is the Creator. Yes, we are asking for forgiveness! Oh our listeners, please give much more attention to what the Holy Prophet is making his weak servant say to you. This is something about the oneness and the greatness and the glory and the majesty of the Lord of Creation. *Subhānallāh*. Glory to Allah Almighty!

We have been ordered to try and gain an understanding about our Creator, but people now are trying to know something about a virus. They are never paying any attention to the One Who brought that virus into existence. People are running after a virus, not to know Who created that virus. That virus is the smallest thing from living creation, according to our understanding. The smallest creature living is a virus. Do you think that the Creator can't bring another creature even smaller than a virus and then give some specialty to that creature? The abilities of the Almighty are endless. When He wants to bring something into existence, He may say "Be!" and that thing will appear.

Therefore, the Lord of the Heavens, the Lord of Creation, may bring something much smaller than a virus, smaller by a hundred times, or a thousand times, or a million times, or a billion times. And you may ask, "Oh Shaykh, what are you saying? How can this be?" Yes! He may bring something into existence which is smaller than that virus; now science is unable to think about something which is smaller than a virus. Who created that virus? He may also create a

much smaller living creature, perhaps even a billion times smaller than a virus! It can be, it must be. You must know that your Creator has endless ability. If He wants to bring a creature which is a billion times smaller than a virus, don't be in doubt that He can do such a thing.

If a person is claiming he can do such a thing, you can ask him, "How can you do that?", but you can't ask this of the Creator. You can't ask Him, "How can You make a new creature which is a billion times smaller than a virus?" He can do it. He has the ability to do anything which your imagination may envisage. This is giving people an idea about our Lord's Divine Being's knowledge. This is making a new opening to our Lord's greatness and His Absolute Being, Dhāt, Essence. You can't reach His Essence. You can't reach His Sifāt, Attributes, and you can't reach the Holy Names of His Attributes. You can't reach the Holy Actions of His Holy Names. This is impossible! Because your capacity is under zero. His capacity is Absolute capacity, He has Absolute ability. How can you think about it?

How can you think about the Greatness of Allah! They are making me speak about this point to make an opening for people's understanding and they began by saying about the representative of the Lord of the Heavens. And they were saying that the representative of the Lord of Heaven, of the Creator, is Sayyidinā Muḥammad ﷺ, *yā Sayyidinā awwalīn wa l-akbirīn*.

All the things that they are making this weak servant speak about are addressing the whole world to try and deflate their pride so that they should be ashamed to say that they know something. You must say, "We know nothing!" *Allābu Akbar*.

And when a tree gives flowers in spring time, those flowers are not the last goal of that tree. If it was the last goal of that tree those flowers would never finish. But

those flowers continue for a while and then turn into so many different kinds of fruits, maybe an apple or a grape. Therefore, don't think that flowering in spring time is the last point of nature. No. Nature is preparing itself by the holy command of its Creator to reach its last goal. It may be figs, or olives, or so many different kinds of fruits.

Therefore, we are found on this planet in this life not for an empty goal. No. We have been put on this planet to learn something, and whatever you have learnt in this life, you should be asked about on the Day of Resurrection. "What did you learn in your life, what was the goal of your life on this planet? What did you do, and what have you learnt? Tell us!" We are not animals just created for eating and drinking and being servants to mankind. Mankind is something else.

The whole of creation has been prepared to help mankind reach their real goal, but now people don't understand that goal and are wasting their precious lives without reaching anything. Therefore, when they pass away, they will be under the level of animals. May Allah forgive us. *Wa min Al-lab at-Tawfiq.* ◆
